

TYPICAL PHARMACY

VS.

AVANCE CARE PHARMACY

Lack of 2-way communication between pharmacist & healthcare provider

Communication

2-way communication between pharmacists & healthcare provider reduces costs, errors, overdoses, & adverse reactions

Pharmacist can't access your complete health records

Collaboration

Our pharmacists have complete understanding of your health records to ensure appropriateness of your prescriptions

You may not receive info you need to maximize safety & effectiveness of your meds

Patient Education

You have 24/7 access to information from our pharmacist on call

Your healthcare provider is unaware if you are following your treatment plan

Treatment Plan

Your healthcare provider & our pharmacists work together to help you follow your treatment plan

No assistance reducing costs

Costs

We help you save \$ thru manufacturer coupons & can help you apply for patient assistance

You must pick up your medication & often have to wait

Convenience

We deliver medications to your door

It's easy to make the switch to Avance Care Pharmacy

Just ask your Avance Care healthcare provider. Receive fast and convenient home delivery, as well as onsite dispensing of 25+ FREE generic medications for acute and chronic conditions. You'll be glad you made us your pharmacy as well as your primary care provider!

Why choose our pharmacy?

- Prescription price matching helps ensure you get the best price
- Pill Box Program keeps your medications organized
- Unlimited clinical pharmacist consults help you understand how, how much, when, and why to take your prescriptions
- At Avance Care Pharmacy we provide [Medication Therapy Management](#) by phone or telehealth that provides you with a comprehensive review of your prescriptions for chronic conditions. This program helps maximize the safety and effectiveness of your medications, while reducing costs and adverse reactions.
